

CIRCULAR

Despite repeated requests, it has been observed that few of the Consultancy Firms still continue to maintain multiple INFRACON IDs by filling different PAN, Mobile No. etc.

It may be noted that maintaining multiple INFRACON IDs is in direct conflict with the RFP provision which prohibits the bidder to bid for a work with more than one team.

Accordingly, all the registered Consultancy Firms having multiple INFRACON IDs are being finally advised to intimate about their single INFRACON ID which they wish to keep activated. Any such matter coming in the notice of INFRACON after **28.02.2018**, shall lead to blocking of all these IDs despite these IDs included in the Team relating to Live Bids.
